Name : **Adi Hemanth**

Contact : +91 7013414142

E-mail : **adihemanth0@gmail.com**

Summary:

➢ 1.2 years of experience in designing and development of applications using **Java/J2EE** Technologies.

➢ Proficient in **Java, JDBC,Spring (IOC, MVC, REST, Data JPA, Boot)** and **Hibernate**.

➢ Having good knowledge on **sql/plsql**.

➢ Working experience in design patterns like **Singleton, DAO, Factory.**

➢ Hands on experience using Web/Application Servers like **Apache Tomcat.**

➢ Experienced with IDEs **Eclipse** and **Visual Studio Code.**

➢ Good communication, analytical skills and flexible to learn new technologies in IT industry towards company's Business Objectives.

➢ Highly adapt at swiftly and thoroughly mastering new technologies with a keen awareness of new industry developments and the evolution of next generation programming solutions.

➢ Extensive experience in **core java**.

➢ Good understanding of **MVC2** architecture**.**

➢ Hands on Exposure in writing **SQL** Queries**.**

➢ Excellent commitment, dedication and planning towards goal oriented tasks.

➢ Effectively communicate with all team members and with the management team.

➢ Willing to learn and adapt new technologies.

Education Summary:

➢ **B.sc** (Bachelor of Science) from SSSS Degree collage in the year 2021 Affiliated By

   Andhra University, Visakhapatnam.

Professional Experience:

➢ Currently Working as a Java Developer at **Infomania Technology Solutions PVT. LTD**, **Bengalore** from **September 2021 to till Date.**

Software Skills:

- ➢ **Languages**   :   Java8.
- ➢ **J2EE Technologies** :   JDBC.
- ➢ **Framework**   :   Hibernate, Spring, Spring MVC and IOC, Spring boot.
- ➢ **Web Technologies**   :   HTML, Angular, Type Script, .
- ➢ **Design Patterns**   :   Singleton, DAO, DTO.
- ➢ **Servers**   :   Apache Tomcat.
- ➢ **RDBMS**   :   Oracle10g.
- ➢ **IDE Tools**   :   Eclipse, Visual Studio Code.
- ➢ **Tools**   :   JUnit,Log4j,Git,Github.

Project Experience:

Project #1: **Health Insurance Management System**

Client	:	**My VRS.**
Duration	:	**February 2022 Till Date.**
Role	:	**Back End Developer.**
Environment	:	**Java8, Hibernate, and Spring IOC , MVC, Spring Boot.**
IDEs	:	**Eclipse.**
Project Tools	:	**Git,Log4j,Junit.**

Description:

HIMS is a health care project deals with health insurance coverage for individuals, group members and employees. It is having several modules like Admin, Member enrolment,Dash board, Provider modules. Admin for 1 user maintenance, Content Management for managing marketing news, Member enrolment for registering users, Dash board for brokers' registration and maintenance.

Responsibilities:

- We strictly followed **MVC2 architecture.**
- Involved in Developing of Spring Controllers.
- Worked with Business Analyst for understanding of Requirements.
- Writing the **HQL** Queries to perform persistence operations.
- Developed **Controller**, **Services** and **Model Components** using Spring.
- Object oriented Software development including analyzing, designing, testing and documenting programming systems.
- Implemented Rest **API** using **Spring Rest** for down stream systems.
- Developed **Controller**, **Service** and **Model Layers** using **Spring modules**.
- Using latest tools like **GIT** for code maintenance and **Sonarqube** for code quality.
